Because shemade a mess out of the heavenly court, the Great Sage Equalling Heaven, Sun Wukong, was subdued by Ru Laifo and sealed beneath Wu Hang Mountain for 500 years.
Guan Yin(Chinese goddess of mercy) found a sutra seeker in China, and had Wu Kong protect him until they reached Western Heaven.
Right on this day.....

note: Sun Wukong is actually male but the author made him a her in the manhua)
